## SUMMARY

Results-driven Android Developer with over 5 years of experience specializing in application maintenance, performance optimization, and crash reduction. Proven ability to enhance code quality, ensure Google Play compliance, and collaborate effectively with cross-country functional teams to deliver robust and user-centric mobile applications.

---

## WORK EXPERIENCES

### Android Developer, PT Bank DBS Indonesia

Apr 2021 - Present

- Led an App Management team, achieving a notable improvement in crash-free user rates (increased by ~2%, raising it to over 99%) along with enhanced application performance and stability.
- Elevated code quality and maintainability by implementing a structured code review process, as well as reducing future tech debt.
- Bridged the gap between business stakeholders and solution engineers, analyzing requirements to create comprehensive technical solutions for new mobile app features.
- Collaborated with the production support team to rapidly diagnose and resolve critical defects, ensuring high application availability.
- Managed Google Play Store compliance, including annual Android SDK updates, broad device compatibility (successfully integrating support for Huawei HMS devices), and adherence to financial regulations (OJK).

### Front End Developer, PT Nalysa

May 2020 - Mar 2021

- Developed web applications using React, .NET framework, and .NET core.

### Android Code Reviewer - Part Time, Dicoding Indonesia

Jan 2020 - Jan 2025

- Reviewed Java and Kotlin codes submitted by students on the Android learning path.
- Addressed the best practices in Android development.

### Android Developer - Internship, PT Anabatic Technologies Tbk

May 2018 - Nov 2018

- Developed an Android mobile banking application (PPOB) using Java, MVP design pattern, multiple product flavors, and Git version control.
  - Managed and published the application on the Google Play Store.
- 

## EDUCATION

### Bachelor Degree of Computer Science

2015 - 2019

Satya Wacana Christian University

GPA: 3.93 / 4.00

---
